

Honorable chair, fellow delegates, distinguished guests and whoever else it might concern

Good Morning,

The delegation of Korea is delighted to have the opportunity to take part in this committee to debate and hopefully solve major problems the world suffers from in our present day.

The delegation would like to emphasize in the topic dealing with the reestructuración of NATO. Since 2005 Korea and NATO have had a building up dialogue and cooperation relationship also an Individual Partnership and Cooperation Programme was signed in September 2012 helping in different aspects, such as political and economical. The republic of Korea is wheeling to ensure the safety of NATO and the members of it or from the MAP.

As members and cooperators of NATO the committee needs to find a solution to protect the most important military organization in the world and away from countries or situations that threaten the existence of the organization

Thank you
